

Year 5 Online Tasks

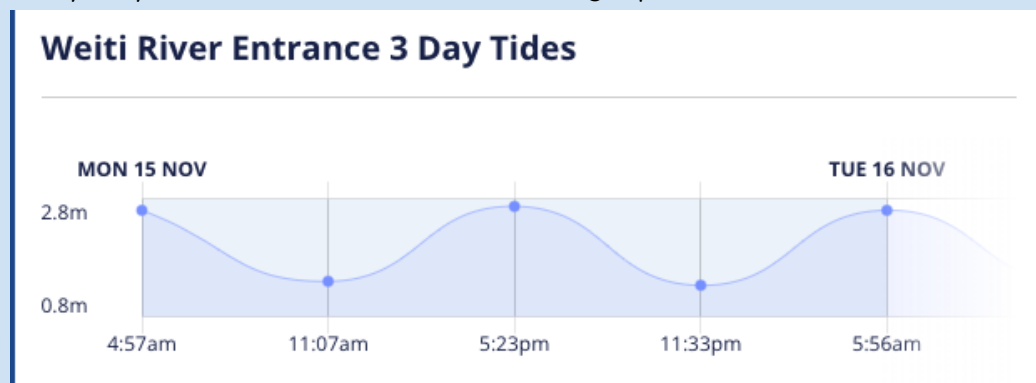

Term 4 Week 6 - Te Wai (The Water)

Literacy

- [Aqueducts](#) Read all about aqueducts in Ancient Rome!
- In your own words, draw a diagram and explain how aqueducts work.
- Extra: Can you make your own miniature version of an aqueduct? There are lots of videos on [youtube](#) to inspire you!

Maths

- Check out the [tides time table](#) for Army Bay. What do you notice? What do you wonder?
- Can you create a graph that shows the tide times over one day for Army Bay. It should look similar to the graph below.

Inquiry

- [Find out about being safe in the water.](#)
- Design a video to promote water safety. Head to the beach and film your video. Share with your class.
- [Carry out this experiment exploring melting.](#)

Digital Technology

- Create a stop motion video with the theme of water. Here is a [link](#) to how to create stop motion. You may want to download an app that will help. A good one is called **stop motion animator** - which is free from the chrome web store. But you can do this with just taking photos and google slides.
